

# CHAUTAUQUA GREEN ENERGY LANDFILL PROJECT

## CHAUTAUQUA, NEW YORK

### **LOCATION:** Chautauqua, NY

Primoris executed the front-end engineering, detailed engineering, procurement, and construction of this project. The landfill was producing power and is now converted to RNG production. Primoris' OnQuest office in San Dimas, California lead the EPC execution and worked with local construction contractors for the field construction activities. Primoris is a leader in the design and execution of renewable energy projects.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

Primoris Design & Construction (PD&C) located in Tyler, Texas and Houston, Texas, is comprised of highly qualified personnel and registered professional engineers providing the full array of engineering services capable of providing complete in-house engineering services with the ability to utilize high value engineering centers if needed. PD&C services both downstream and midstream energy sectors including refining, petrochemical, blue/gray hydrogen, syngas, LNG, biodiesel, renewable natural gas, and midstream pipelines, processing facilities, terminals, and gathering systems.
