

## CIVIL ELECTRICAL CONDUIT WORK SAN MARCOS, CALIFORNIA

**LOCATION:**  
San Marcos, CA

ARB Underground completed a project in San Marcos, CA involving the excavation and backfill of approx. 1,000' of trench and the installation of approx. 8,550' of 4" and 6" plastic conduit as well as the installation of a large electrical vault and 1 electrical handhole.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

ARB Underground, a subsidiary of Primoris, installs several types of underground structures including large-diameter transmission pipelines for natural gas, crude oil, petrochemical and petroleum products, natural gas distribution systems, water, sewer, drainage systems, high voltage power, and communications (fiber optics). Our quality of pipeline and related infrastructure construction is a major part of the foundation for the company's 60 plus year history. ARB Underground is headquartered in Lake Forest, California, and has multiple locations throughout the state of California.
