

NAVAL STATION GUANTANAMO BAY LNG FACILITY

GUANTANAMO BAY

LOCATION: Guantanamo Bay

Primoris' scope of work includes procurement of four large bullet LNG storage tanks each with a capacity of 265,000 gallons, an LNG off-loading system, a 1,000' sub-sea pipeline, and LNG regasification system to supply natural gas to the Navy's new power plant. Various additional improvements have been recommended by Primoris, including the planned addition of Boil-Off Gas compressors and a flare, as well as other process improvements identified by Primoris.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

Primoris Design & Construction (PD&C) located in Tyler, Texas and Houston, Texas, is comprised of highly qualified personnel and registered professional engineers providing the full array of engineering services capable of providing complete in-house engineering services with the ability to utilize high value engineering centers if needed. PD&C services both downstream and midstream energy sectors including refining, petrochemical, blue/gray hydrogen, syngas, LNG, biodiesel, renewable natural gas, and midstream pipelines, processing facilities, terminals, and gathering systems.
