

WILLIAMS, CALIFORNIA

LINE 401

LOCATION:

Williams, CA

Installation of 300 feet of 42-inch diameter natural gas carrier pipe in a push and retrieve sequence using traditional auger boring with a hydraulic steering head for guidance. The project was completed in an environmentally sensitive area which required special procedures, monitoring and documentation.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

Pipe Jacking, a subsidiary of Primoris, is an underground contractor that services all markets of trenchless excavation except for horizontal directional drilling (HDD). Pipe Jacking specializes in the installation of conduits for water, wastewater, storm drain, and oil & gas by means of direct pipe jacking or two-pass installation. We currently hold contractors licenses in California, Nevada, and Arizona, and is headquartered in San Bernardino, California.
