

LOCATION:
Brazoria County, TX

Primoris Pipeline completed the installation of 155 miles of 16-inch ethane pipeline along the Texas Gulf Coast in 2021. Included in the project scope were 20 mainline valves, 23,122 linear feet of bores and 69,630 linear feet of horizontal directional drills. This project had over 1,000,000 safe man-hours with a TRIR of 0.00.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

Acquired by Primoris Services Corporation in 2012, Primoris Pipeline is a non-union pipeline construction company offering a wide range of services throughout the United States. Primoris Pipeline specializes in the construction of small and large diameter pipelines for petroleum products, petrochemical, crude oil and natural gas transmission lines, and is headquartered in Rosharon, Texas.
