

# NORTH CAROLINA AIRPORT PROJECT

**LOCATION:**  
Charlotte, NC

**COMPLETION:**  
Estimated April 2022

Primoris Water & Mechanical has continued making steady progress on this Airport Project installing a turnkey utility corridor including chilled and hot water piping, telecommunications ductbank, and all related site work. The team recently completed the final auger bores under road crossings. Critical phases in Rental Car Road and the airport's loading dock are substantially complete, allowing the final focus for piping tie-ins; testing and flushing; and startup and restoration.
